

**Attachment 1 Summary of submissions
Concept Statement
Central Adelaide Precibed Wells Area**

1/04/2008+A1	Author, Organisation	Org type	Comment ID	Key issues	Response	Recommended changes to Concept Statement	Initials	Date
CS001	RS Burke	Private	CS001-01	Suggestions for WAP principles and management of water resources in general	Noted, not relevant to Concept Statement	None	MS	1/04/2004
CS002	David Hards, Payneham Bowling Club	Community	CS002-01	Relevant period for existing user status unfair	Noted. The Board and DWLBC are aware of the issue and are investigating policies for prioritising new applications.	None	MS	1/04/2004
CS003	Zane McDonnell	Private	CS003-01	WAP needs to provide for domestic use	Noted, not relevant to Concept Statement. Will be included in water balance for WAP.	None	MS	1/04/2008
CS003	Zane McDonnell	Private	CS003-02	Who pays for costs re meters and water quality testing	Noted, not relevant to Concept Statement	None	MS	1/04/2008
CS004	Ana Llewellyn, City of Prospect	Local Govt	CS004-01	Comfortable with the content of the Concept Statement	Noted, thankyou	None	MS	1/04/2008
CS005	Stephen West, City of Burnside	Local Govt	CS005-01	Considered to be a very thorough identification of the data gathering, research, planning and policy making necessary to ultimately produce a technically robust and legally defensible water allocation plan for the Adelaide metro area	Noted, thankyou	None	MS	1/04/2008
CS006	Colin Thomas	Private	CS006-01	Questions related to methodology of resource assessment for WAP	Noted, not relevant to Concept Statement	None	MS	1/04/2008
CS007	Kris Hanna, Member for Mitchell	MP	CS007-01	The ultimate goal should be to measure all extractions and consideration should be given to charging for the use of that water	Noted, not relevant to Concept Statement. Under State metering policy all licensed extractions will be metered.	None	MS	1/04/2008
CS008	Stephen Forbes, Botanic Gardens of Adelaide	State Govt	CS008-01	Support the broad direction of the Concept Statement	Noted, thankyou	None	MS	1/04/2008
CS009	Rebecca Naumann, City of Marion	Local Govt	CS009-01	Comments offered for the development of the WAP with regards to City of Marion.	Noted, not relevant to Concept Statement	None	MS	1/04/2008
CS010	David Deer, City of Mitcham	Local Govt	CS010-01	Local or domestic supplies not monitored. The impact on thousands of small bores taking water especially during dry periods needs to be controlled or measured in order to preserve groundwater no matter which level.	Noted, not relevant to Concept Statement	None	MS	1/04/2008
CS010	David Deer, City of Mitcham	Local Govt	CS010-02	Seems to be no inclusion of aquifer recharge	This is included and referred to as <i>managed aquifer recharge</i> on page 5 of the Concept Statement.	None	MS	1/04/2008
CS011	Raymond Garrand, DTED	State Govt	CS011-01	Comments on water resource planning re business impacts, red tape reduction, water trading, industry consultation and miscellaneous.	Noted, not relevant to Concept Statement	None	MS	1/04/2008
CS012	Peter O'Neill, DWLBC	State Govt	CS012-01	The Concept Statement should include reference to an assessment of risks to the resource, including climate change, in accordance with paragraph 1.iii) of Schedule E of the Intergovernmental Agreement on a National Water Initiative (NWI).	This is part of the " <i>assessment of the capacity of the resource to meet demands on a continuing basis</i> " stated on page 4 of the Concept Statement. Section 5, page 6 refers to having regard to the requirements of the NWI Agreement.	None	MS	1/04/2008
CS012	Peter O'Neill, DWLBC	State Govt	CS012-02	The Concept Statement should include a reference to indigenous consultation in accordance with paragraphs 52 and 53 of the NWI. Reference has been made to Native Title (section 7 Additional Consultation), however the process of engagement of indigenous groups needs to be more comprehensive than that described, and may be quite separate to native title. The issue here is, the need to include a clear process for consultation with indigenous groups regarding the development of the water allocation plan, which may or may not include native title matters	Section 7, page 7 of the Concept Statement states that a comprehensive consultation strategy will developed. This is the document that will define the clear process. Section 5, page 6 refers to having regard to the requirements of the NWI Agreement.	None	MS	1/04/2008
CS012	Peter O'Neill, DWLBC	State Govt	CS012-03	The Concept Statement could include the determination of a consumptive pool or pools (in accordance with the NWI) if this concept is considered useful in the allocation of water through the water allocation plan	This is included as " <i>set sustainable volumes or levels</i> " in Section 2, page 5 of the Concept Statement. Section 5, page 6 refers to having regard to the requirements of the NWI Agreement.	None	MS	1/04/2008
CS012	Peter O'Neill, DWLBC	State Govt	CS012-04	Under 'Assessment of the effects on other water resources', remove the words <i>joint management</i> and replace with <i>consistent</i> with the Western Mount Lofty Ranges Prescribed Water Resources Area (WMLR PWRA). The policies need to be consistent between the CAPWA and WMLR PWRA as it is difficult to see how they can be jointly managed	This is the " <i>assessment of options for joint management</i> " which may not be confined to consistent policy but may conclude that boundary changes may be the best option for future management of like resources in adjacently prescribed areas.	None	MS	1/04/2008
CS012	Peter O'Neill, DWLBC	State Govt	CS012-05	Matters for consideration during the preparation of the water allocation plan	Noted, not relevant to Concept Statement	None	MS	1/04/2008
CS013	Stuart Moseley, Adelaide City Council	Local Govt	CS013-01	Include Adelaide Park Lands users in consultation on WAP and Concept Statement	Noted, Park Lands users are on contact list.	None	MS	1/04/2008
CS013	Stuart Moseley, Adelaide City Council	Local Govt	CS013-02	Comments re WAP methodology	Noted, not relevant to Concept Statement	None	MS	1/04/2008
CS014	Paul Anderson, Office for Recreation and Sport	State Govt	CS014-01	Incorporate open space for sport and active recreation as a highpriority are for dispensation with respect to current and future groundwater allocations	Noted, not relevant to Concept Statement	None	MS	1/04/2008
